## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 28, and 29 rejected under 35 U.S.C. 102(b) as being anticipated by US 4,773,299.

US'299 discloses an apparatus that includes a loading tube 84 for a perforating gun 42 comprising: cups 70 forming cup cavities for enclosing an explosive charge within each of the cups; and ridges forming valleys 156, 158 therebetween. With respect to claim 2, each cup cavity matches the charge profile. With respect to claim 28, the reference discloses a method that includes a method of constructing a loading tube for a perforating gun comprising the steps of: forming a material to have a pattern of explosive charge cups 70 formed along longitudinal sections of the material; placing explosive charges within the explosive charge cups along folding the one of the longitudinal sections; and longitudinal sections together to substantially enclose the explosive charges within a substantially cylindrical tube 84. With respect to claim 29, the reference teaches slots for a detonation cord 124.

Art Unit: 3676

***Allowable Subject Matter***

3. Claims 3-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 18-27 are allowed.

***Conclusion***
